LOOK INTO HER EYES...

Madeleine's Eye Holds Vital Clue

Madeleine McCann's family believe a new picture of the missing four-year-old could play a vital role in the search for her.

The photo of the youngster shows clearly the her distinctive right eye, where the pupil runs into the blue-green iris.

Her right eye

Mrs McCann said: "The purpose of the poster is to highlight the distinction in Madeleine's eye.

"We want to make the most of it, because we know her hair could potentially be cut or dyed."

Mr McCann added: "The poster was designed by a friend of the family and I've begun Emailing it to acquaintances in different parts of the world.

"I'm asking people to circulate it the best they can and make it be seen."

Madeleine's Eye Holds Vital Clue

As you are aware my niece is still missing and I am asking everyone I know to send this as a chain letter i.e. you send it to everyone you know and ask them to do the same, as the story is only being covered in Britain, eire and Portugal. We don't believe that she is in Portugal anymore and need to get her picture and the story across Europe as quickly as possible.

Suggestions are welcome.

Phil McCann
